Appendix A

- The following data table is of swimming pools in schools that were classed as "in use" as at 30 June 2022.
- Boards are able to make the decision to close pools, temporarily or permanently, without informing the Ministry. This means there may be some variation between the pools actually operating, and the pools recorded in the Ministry's database. Boards may decide to close pools for a range of reasons. Common examples include cost, a lack of use, or the availability of better local alternatives.
- Schools that show more than one row do not necessarily have more than one pool. Rather, our data is presented in a length by width manner and non rectangular pools may be displayed in two or more rows

Released under the Official Information Act 1982

School Number	School Name	Building Type	Building Year Built	Building Heating Type	Capacity (metres cubed of water)	Length (metres)	Width (metres)
