

Thank you for your email of 2 May 2018 to the Ministry of Education requesting the following information:

1. *How much has been spent on broadband/internet facilities each year for the last five years to date?*
2. *How much has been budgeted for internet facilities/broadband?*
3. *Please provide a list of school names/regions/decile of the schools that have had their broadband/internet facilities upgraded or installed, please provide the dates of installation/upgrade for each school.*
4. *Please provide a list of schools names/regions/decile of the schools that have not had their broadband/internet facilities upgraded and are awaiting for it to be installed. Provide an expected date of completion if available.*

Your request has been considered under the Official Information Act 1982 (the Act).

The School Network Upgrade project (SNUP) was introduced in 2004 to bring schools' ICT infrastructure up to standard and to ensure schools would be able to connect to the internet to enable better learning outcomes. SNUP was completed in December 2015.

All eligible schools that received a SNUP upgrade after June 2013 received wireless as part of their SNUP upgrade. In November 2014, the Wireless School Network Upgrade Project (WSNUP) was introduced to retrofit the 1,060 schools that had been upgraded prior to June 2013 with wireless connectivity. WSNUP is currently in the last phase of delivery and is expected to be completed by the end of the 2018/19 financial year.

Network for Learning (N4L) is a Crown company established in 2012 to build a managed network specifically designed for New Zealand schools, and to create an environment that encourages the uptake of digital learning. N4L's managed network provides all state and state integrated schools with fast, reliable internet complete with uncapped data, web filtering, network security services and helpdesk support.

There are over 850,000 students and teachers accessing the managed network, consuming an average of 4 petabytes of data per month.

Your questions are addressed individually on the following page.

**1. How much has been spent on broadband/internet facilities each year for the last five years to date?**

The figures in the table below have been rounded to first decimal place

	13/14	14/15	15/16	16/17	17/18
Broadband internet facilities spend by year (rounded to nearest \$0.1m) including School Network Upgrades and Managed Network	\$50.6m	\$69.0m	\$57.2m	\$37.5m	\$33.8m

**2. How much has been budgeted for internet facilities/broadband?**

The total budgeted allocation for School Network Upgrades, including the Managed Network, over the last five years is around \$248.1 million.

**3. Please provide a list of school names/regions/decile of the schools that have had their broadband/internet facilities upgraded or installed, please provide the dates of installation/upgrade for each school.**

I have attached a spreadsheet of all schools that have been a part of broadband upgrades since 2004 (**Appendix A**). The spreadsheet contains information on the projects that have been completed as part of the SNUP and WSNUP projects, their completion dates and the Managed Network connection dates. As stated above all eligible schools have now received a SNUP upgrade.

Following the introduction of Wireless in June 2013 all eligible schools received wireless as part of their SNUP upgrade. The schools upgraded under SNUP prior to June 2013 are being retrofitted with wireless under WSNUP. The majority of these schools have been completed.

Refer to **Appendix B** for information on WSNUP schools not yet completed.

**4. Please provide a list of schools names/regions/decile of the schools that have not had their broadband/internet facilities upgraded and are awaiting for it to be installed. Provide an expected date of completion if available.**

I have also attached, as **Appendix B**, a spreadsheet containing information on the remaining WSNUP projects that are due to be completed. At the time of this report 107 schools upgraded under SNUP prior to 2013 were yet to be retrofitted with wireless connectivity under WSNUP. Please be aware that this number is changing daily.

Funding was approved for these schools in March 2018 and, as mentioned above, all of these schools will be completed by the end of the 2018/19 financial year.

The information provided has been sourced from several different spreadsheets. While all care has been taken to ensure the information is correct there may be some discrepancy in the data.

Please note, the Ministry now proactively publishes OIA responses on our website. As such, we may publish this response on our website after five working days. Your name and contact details will be removed.

Thank you again for your email. If you have further questions please feel free to contact our media team in the first instance at [media@education.govt.nz](mailto:media@education.govt.nz). If you are unsatisfied with my response, you have the right to ask an Ombudsman to review it. You can do this by writing to [info@ombudsman.parliament.nz](mailto:info@ombudsman.parliament.nz) or Office of the Ombudsman, PO Box 10152, Wellington 6143.

Yours sincerely

Kim Shannon

**Head of Education Infrastructure Service**
