## Wellbeing@School Survey

Schedule 6 of the Partnership Schools Agreement requires you to run the Wellbeing@School Survey annually.

**NOTE:** The Wellbeing@School survey is only available for students in years 5 and above.

Last completed:

(DD/MM/YYYY)

9/08/2018

Next scheduled:

(DD/MM/YYYY)

9/08/2019

If you have completed the Wellbeing@School survey for this year, please summarise the key findings and any actions you are taking, or that you are planning to take, in response to the survey's findings.

The results from the survey indicate that the time and effort invested in establishing and nurturing healthy relationships at Te Kōpuku High are having the desired effect with 98% mokopuna reporting that teachers and students care about each other and 97% acknowledging that staff treat each other with respect. Year 7 mokopuna, who are experiencing the 'way we do things' for the first time, provide further insight into our school climate and culture with 90% claiming they felt they belonged and 83% reporting they were accepted for who they were after 8 months in our programme.

96% mokopuna reported they felt safe at school and 90% agreed or strongly agreed that hitting or bullying are not tolerated. This correlates strongly with the findings from the aggressive student culture theme of the survey where 87% mokopuna reported they had never or rarely been bullied by other students in the school. Furthermore, in the

## Targeting Priority Learners

Please provide an explanation if your quarterly result is lower than 75%. You may also choose to comment even if you have met the target range. If you have no comment, please specify "n/a".

## Financial Performance

Financial Performance Measures are set out in Clause 2.3 of Schedule 6 of the Partnership Schools Agreement.

### Operating Surplus (Target: 2%-5%)

The Operating Surplus is the difference between total revenue and total expenditure (including interest expenses, tax, and depreciation on assets). Schools should generally have a small surplus each year to ensure sufficient reserves are available to provide for any unexpected expenditure.

**The Operating Surplus is calculated as follows:**

Net Surplus after expense, taxes, depreciation and amortisation divided by total revenue.

Operating (Net) Surplus	Q1	Q2	Q3	Q4	YTD
Income (\$)	\$495,115	\$594,309			
Expenditure - incl interest, tax & depreciation (\$)	\$449,668	\$504,150			
Operating (Net) Surplus (\$) - after interest and taxes	\$45,447	\$90,159	\$0	\$0	\$0
Operating (Net) Surplus (%)	9.2%	15.2%	0.0%	0.0%	0.0%

Please provide an explanation if the quarterly result does not meet the performance standard. Your explanation should outline the reasons for this, what actions you are taking to remedy the situation, and an estimated date by which the Operating Surplus will meet the performance standard. You can comment even if you have met the performance standard. If you have no comment, please specify "n/a".

Operating surplus exceeds target ratio.

**Working Capital Ratio (Target: at least 2:1)**

The Working Capital Ratio includes a school's ability to meet their short-term financial obligations through sound financial operation. Having a Working Capital Ratio of at least 1:1 means that a school is able to pay its short-term debts and operate with some flexibility. For example, if the Working Capital Ratio is 1.35:1, this would mean that for every \$1 of current liabilities owed, the school has \$1.35 current assets to use to meet their short-term financial obligations.

**The Working Capital Ratio is calculated as follows:**  
current assets divided by current liabilities

Working Capital Ratio	Q1	Q2	Q3	Q4
Current Assets (\$)	\$170,325	\$391,358		
Current Liabilities (\$)	\$93,482	\$210,802		
Working Capital (\$)	\$76,843	\$180,556	\$0	\$0
Ratio (eg 2:1)	1.8:1	1.9:1	0	0

Please provide an explanation if the quarterly result does not meet the performance standard. Your explanation should outline the reasons for this, what actions you are taking to remedy this, and an estimated date by which the Working Capital Ratio will meet the performance standard. You can comment even if you have met the performance standard. If you have no comment, please specify "n/a".

The working capital ratio of 1.9:1 is less than the target 2.:1 The kura is just under under the target and is able to meet short term obligations as they fall due including wages, taxes and creditors.

**Debt Equity Ratio (Target: Maximum 0.5:1)**

A Debt Equity Ratio indicates how much debt an organisation is using to finance its assets relative to the amount of value it holds in equity. A ratio lower than 1 indicates that the entity has taken on manageable debt levels and has a low risk, and the lower the number, the less risk the entity is exposed to.

**The Debt Equity Ratio is calculated as follows:**  
total liabilities divided by total equity

Debt Equity Ratio	Q1	Q2	Q3	Q4
Equity (\$)	\$557,039	\$772,487		
Total Liabilities (\$)	\$101,710	\$219,030		
Ratio (eg 0.5:1)	0.2:1	0.3:1	0	0

Please provide an explanation if the quarterly result does not meet the performance standard. Your explanation should outline the reasons for this, what action you are taking to remedy this, and an estimated date by which the Debt Equity Ratio will meet the performance standard. You can comment even if you have met the performance standard. If you have no comment, please specify "n/a".

The ratio is lower than 1.

**Operating Cash Flow (Target: positive operating cash flow)**

Operating Cash Flow represents the net inflow and outflow of cash in relation to the operating activities of your school for the quarter. A positive Operating Cash Flow indicates that the school is able to generate sufficient cash flow to maintain and grow its operations.

**The Operating Cash Flow is calculated as follows:**  
by adjusting the net surplus to take into account non-cash income and operating expenses, and changes to working capital (excluding cash)

	Operating Cash Flow	Q1	Q2	Q3	Q4	YTD
	Operating (Net) Surplus - after tax	\$45,447	\$90,159	\$0	\$0	\$0
less	Non-cash income (eg Establishment Funding released over time)	\$0	\$0			\$0
plus	Non-cash Operating Expenses (eg depreciation)	\$28,500	\$36,555			\$65,055
less	Changes in Working Capital - excluding cash*	\$533	\$116,814			\$117,347
	Operating Cash for the quarter (\$)	\$73,414	\$9,900	\$0	\$0	-\$52,292

\* Increases in Working Capital should be inputted as a positive number, whereas decreases in Working Capital should be inputted as a negative number.

Please provide an explanation if the quarterly result does not meet the performance standard. Your explanation should outline the reasons for this, what action you are taking to remedy this, and an estimated date by which the Operating Cash Flow will meet the performance standard. You can comment even if you have met the performance standard. If you have no comment, please specify "n/a".

Q2 results indicate positive working capital for the quarter but the year to date results are negative. We wish to note we have a large amount of accrued expenses in this quarter. We have accrued regular expenses such as power and rent as we have not received appropriate invoices yet. Funds have been set aside for these payments once invoices have been received.

## Debt Service Coverage Ratio

Clause 18.2 of the Partnership Schools Agreement requires you to report on your Debt Service Coverage Ratio as part of each quarterly and each annual report if you are servicing any term debt. The Debt Service Coverage Ratio is a measure of the cash flow available to pay current debt obligations. It states forecast net operating income as a multiple of debt obligations due within one year. If the ratio is less than 1, the borrower is unable to pay current debt obligations without drawing on outside sources - without, in essence, borrowing more. If it is too close to 1 - say 1.1 - the entity is vulnerable, and a minor decline in cash flow could make it unable to service its debt.

### The Debt Service Coverage Ratio is calculated as follows:

by dividing the forecast net operating surplus for the next 12 months (before interest, taxes and lease payments) by the total of debt obligations due within one year (including interest, principal, sinking fund and lease payments, and including property and other operating leases, eg photocopiers).

18.2(b) Do you service any interest, principal or lease payments?

Yes

Please complete the table below if the answer is "yes".

Debt Service Coverage Ratio	Q1	Q2	Q3	Q4	YTD
Forecast Operating (Net) Surplus for the next 12 months - after interest and taxes	\$4,000	\$90,160			\$94,160
Forecast Interest and Lease Payments Payable for the next 12 months	\$362,592	\$362,600			\$725,192
Forecast Operating (Net) Surplus before interest, lease payments and taxes for the next 12 months	\$366,592	\$452,760	\$0	\$0	\$819,352
Total debt obligations due in the current next 12 months (including interest, principal, sinking fund and lease payments, and including property and other operating leases (eg photocopiers))	\$362,592	\$362,600			\$725,192
Debt Service Coverage Ratio (%)	1:1	1.2:1	0:1	0:1	1.1:1

18.2(a) Has the Sponsor defaulted on any of its debt obligations, or can reasonably anticipate that it may soon default on any of its debt obligations?

No

Please provide further detail if the answer is "yes". If the answer is "no", please specify "n/a".

The kura is in an unfavorable position with regard to Foreman Road lease commitments. We are vulnerable to any increases in rent and/or rates. We do not expect our sponsor to cover any rent payments. The rent situation will be alleviated in the future once the kura becomes a designated character school. The kura has no long term debt and does not pay interest.
