## Student Engagement

Student Engagement performance standards are set out if Clause 2.2 of Schedule 6 of the Partnership Schools Agreement. Annex A to Schedule 6 provides specific performance standards for each year level. Please provide your student engagement results for this quarter below.

Student Engagement	Annual Performance Standard	Q1	Q2	Q3	Q4	YTD	Annual Limit

Vanguard continues to stand firm on its zero tolerance to physical violence and drug and alcohol use. It is a key element to who we are and what we stand for and is seen as vital to maintaining the discipline and behavioural expectations that parents expect. The direct outcome of our policies can be seen in the academic results the school gains.

## Targeting Priority Learners

Clause 2.4 of Schedule 6 of the Partnership Schools Agreement requires you to target a minimum of 75% priority learners. Please complete the table below on Priority Learners in relation to the current quarter.

**NOTE:** a student can only be counted in one category, even if they identify with more than one priority group.

Target % priority learners	Actual % priority learners			
	Q1	Q2	Q3	Q4
75%	67%	66%		

Please provide an explanation if your quarterly result is lower than 75%. You may also choose to comment even if you have met the target range. If you have no comment, please specify "n/a".

This has been an ongoing issue with the enrolment policy of accept all yet we must meet a target that we have no control over. The two trends to note are that we have increased the number of priority learners from this time last year and there has been an increase in "other european" recruits attending Vanguard, namely Russian and Eastern Europeans.

## School Curriculum

Curriculum and Qualifications are set out in Schedule 2 of the Partnership Schools Agreement. Please state if there have been any changes to the agreed Learning Areas identified in Clause 2 of Schedule 2.

No

Please provide further information if there have been changes to the agreed Learning Areas. If there have not been any changes, please specify "n/a".

## Financial Performance

Financial Performance Measures are set out in Clause 2.3 of Schedule 6 of the Partnership Schools Agreement.

### Operating Surplus (Target: 2%-5%)

The Operating Surplus is the difference between total revenue and total expenditure (including interest expenses, tax, and depreciation on assets). Schools should generally have a small surplus each year to ensure sufficient reserves are available to provide for any unexpected expenditure.

The Operating Surplus is calculated as follows:

Net Surplus after expense, taxes, depreciation and amortisation divided by total revenue.

Operating (Net) Surplus	Q1	Q2	Q3	Q4	YTD
Income (\$)	\$758,900	\$748,747			
Expenditure - incl interest, tax & depreciation (\$)	\$687,263	\$700,560			
Operating (Net) Surplus (\$) - after interest and taxes	\$71,637	\$48,187	\$0	\$0	\$0
Operating (Net) Surplus (%)	9.4%	6.4%	0.0%	0.0%	0.0%

Please provide an explanation if the quarterly result does not meet the performance standard. Your explanation should outline the reasons for this, what actions you are taking to remedy the situation, and an estimated date by which the Operating Surplus will meet the performance standard. You can comment even if you have met the performance standard. If you have no comment, please specify "n/a".

Vanguard expects that the operating surplus will continue to drop with larger expenses due in the second half of the year. It is expected that it will sit at 5% at the end of the year.

**Working Capital Ratio (Target: at least 2:1)**

The Working Capital Ratio includes a school's ability to meet their short-term financial obligations through sound financial operation. Having a Working Capital Ratio of at least 1:1 means that a school is able to pay its short-term debts and operate with some flexibility. For example, if the Working Capital Ratio is 1.35:1, this would mean that for every \$1 of current liabilities owed, the school has \$1.35 current assets to use to meet their short-term financial obligations.

**The Working Capital Ratio is calculated as follows:**  
current assets divided by current liabilities

Working Capital Ratio	Q1	Q2	Q3	Q4
Current Assets (\$)	\$587,084	\$598,192		
Current Liabilities (\$)	\$171,892	\$142,794		
Working Capital (\$)	\$415,192	\$455,398	\$0	\$0
Ratio (eg 2:1)	3.4:1	4.2:1	0	0

Please provide an explanation if the quarterly result does not meet the performance standard. Your explanation should outline the reasons for this, what actions you are taking to remedy this, and an estimated date by which the Working Capital Ratio will meet the performance standard. You can comment even if you have met the performance standard. If you have no comment, please specify "n/a".

N/A

**Debt Equity Ratio (Target: Maximum 0.5:1)**

A Debt Equity Ratio indicates how much debt an organisation is using to finance its assets relative to the amount of value it holds in equity. A ratio lower than 1 indicates that the entity has taken on manageable debt levels and has a low risk, and the lower the number, the less risk the entity is exposed to.

**The Debt Equity Ratio is calculated as follows:**  
total liabilities divided by total equity

Debt Equity Ratio	Q1	Q2	Q3	Q4
Equity (\$)	\$781,602	\$799,252		
Total Liabilities (\$)	\$171,892	\$142,845		
Ratio (eg 0.5:1)	0.2:1	0.2:1	0	0

Please provide an explanation if the quarterly result does not meet the performance standard. Your explanation should outline the reasons for this, what action you are taking to remedy this, and an estimated date by which the Debt Equity Ratio will meet the performance standard. You can comment even if you have met the performance standard. If you have no comment, please specify "n/a".

**Operating Cash Flow (Target: positive operating cash flow)**

Operating Cash Flow represents the net inflow and outflow of cash in relation to the operating activities of your school for the quarter. A positive Operating Cash Flow indicates that the school is able to generate sufficient cash flow to maintain and grow its operations.

**The Operating Cash Flow is calculated as follows:**  
by adjusting the net surplus to take into account non-cash income and operating expenses, and changes to working capital (excluding cash)

	Operating Cash Flow	Q1	Q2	Q3	Q4	YTD
	Operating (Net) Surplus - after tax	\$71,637	\$48,187	\$0	\$0	\$0
less	Non-cash income (eg Establishment Funding released over time)	\$0	\$0			\$0
plus	Non-cash Operating Expenses (eg depreciation)	\$0	\$0			\$0
less	Changes in Working Capital - excluding cash*	\$0	\$0			\$0
	Operating Cash for the quarter (\$)	\$71,637	\$48,187	\$0	\$0	\$0

\* Increases in Working Capital should be inputted as a positive number, whereas decreases in Working Capital should be inputted as a negative number.

Please provide an explanation if the quarterly result does not meet the performance standard. Your explanation should outline the reasons for this, what action you are taking to remedy this, and an estimated date by which the Operating Cash Flow will meet the performance standard. You can comment even if you have met the performance standard. If you have no comment, please specify "n/a".

## Debt Service Coverage Ratio

Clause 18.2 of the Partnership Schools Agreement requires you to report on your Debt Service Coverage Ratio as part of each quarterly and each annual report if you are servicing any term debt. The Debt Service Coverage Ratio is a measure of the cash flow available to pay current debt obligations. It states forecast net operating income as a multiple of debt obligations due within one year. If the ratio is less than 1, the borrower is unable to pay current debt obligations without drawing on outside sources - without, in essence, borrowing more. If it is too close to 1 - say 1.1 - the entity is vulnerable, and a minor decline in cash flow could make it unable to service its debt.

### The Debt Service Coverage Ratio is calculated as follows:

by dividing the forecast net operating surplus for the next 12 months (before interest, taxes and lease payments) by the total of debt obligations due within one year (including interest, principal, sinking fund and lease payments, and including property and other operating leases, eg photocopiers).

18.2(b) Do you service any interest, principal or lease payments?

Yes

Please complete the table below if the answer is "yes".

Debt Service Coverage Ratio	Q1	Q2	Q3	Q4	YTD
Forecast Operating (Net) Surplus for the next 12 months - after interest and taxes	\$90,000	N/A			#VALUE!
Forecast Interest and Lease Payments Payable for the next 12 months	\$700,000	N/A			#VALUE!
Forecast Operating (Net) Surplus before interest, lease payments and taxes for the next 12 months	\$790,000	#VALUE!	\$0	\$0	#VALUE!
Total debt obligations due in the current next 12 months (including interest, principal, sinking fund and lease payments, and including property and other operating leases (eg photocopiers))	\$700,000	N/A			#VALUE!
Debt Service Coverage Ratio (%)	1.1:1	0:1	0:1	0:1	0:1

18.2(a) Has the Sponsor defaulted on any of its debt obligations, or can reasonably anticipate that it may soon default on any of its debt obligations?

No

Please provide further detail if the answer is "yes". If the answer is "no", please specify "n/a".

Q1 was selected as for the next 12 months, by inputting again it is becoming additional and skewing the data. Needs a fix.
