Purpose of Report

The purpose of this report is for you to:

Note the update on implementation of Ka Ora, Ka Ako | Healthy School Lunches Programme and next steps.

Agree that this Briefing will be proactively released.

Agree / Disagree

Katrina Casey
Deputy Secretary
Sector Enablement and Support

27/4/2021

Hon Chris Hipkins
Minister of Education

23/5/2021

Summary

- 1 Ka Ora, Ka Ako | Healthy School Lunches Programme is delivering lunches to 153,371 students at 616 schools and kura as at the end of Term 1.
- 2 By the end of Term 2 2021, 832 schools and kura will be delivering a daily lunch to almost 200,000 students.
- 3 During Term 3 2021, the final tranche of 131 schools and kura will commence delivery of a daily lunch to a further 15,000 students.
- 4 From Term 4 2021, all 963 schools and kura will be delivering a daily lunch to 215,000 students.

Background

- 5 In April 2019, Cabinet agreed to fund a pilot to trial a school lunch programme. The initiative was intended to provide a daily free and healthy lunch to all Year 1 to 8 students in participating schools and kura. The pilot, was run in three education regions, targeted the 20 percent of schools with the highest concentrations of socio-economic disadvantage based on the Equity Index. Implementation commenced in Term 1, 2020.
- 6 The programme was expanded to cover 25 percent of all students across the country who face the greatest levels of socio-economic disadvantage and barriers that can affect access to education, wellbeing and achievement. Funding has enabled 32 percent of schools and kura across New Zealand to join the programme.

Implementation has been phased over several tranches:

Tranches	# of schools/kura	# of students
Tranche 1 (pilot) – Hawke's Bay/Tairāwhiti, Bay of Plenty/Wairariki	42	9,737
Tranche 2 (pilot) - Otago/Southland	18	3,043
Tranche 3 (pilot) - Hawke's Bay/Tairāwhiti, Bay of Plenty/Wairariki	60	8,000
Tranche 3 (expansion) - Hawke's Bay/Tairāwhiti, Bay of Plenty/Wairariki	99	23,165
Tranche 4 – across the remaining eight education regions (including the Otago/Southland expansion	613	155,557
Tranche 5 – Specialist schools, Activity Centres, Teen Parent Units, schools and kura	131	15,480
Total	963	215,342

- 7 On 22 March 2021 Cabinet agreed to extend funding for the programme until December 2023.

Implementation Update

Tranches 1, 2 and 3 – Pilot

- 8 The pilot allowed the programme to start small in three education regions, testing out delivery models and how these would work for schools and kura.
- 9 The pilot was rolled out to 120 schools and kura with 21,000 students. The announcement of the expansion coincided with invitations to Tranche 3. All pilot schools and kura were delivering lunches by Term 4, 2020.

Tranche 3 – Expansion

- 10 In May 2020, the Government announced that it would expand the programme to reach 25 percent of all students across the country. At this stage, 99 newly eligible schools and kura in Hawke's Bay/Tairāwhiti and Bay of Plenty/Waiariki were invited to join the programme. This coincided with going out to market for Tranche 3 pilot suppliers. The 99 schools were therefore included in this tender process.

Tranche 4 – Expansion

- 11 As part of the expansion, an additional 613 schools and kura (around 161,000 students) across the remaining seven education regions, as well as additional schools in Otago/Southland, accepted the invitation to join the programme. Out of the 642 schools and kura originally invited, 29 schools and kura declined the invitation, opening up space for additional schools and kura to join as part of Tranche 5.
- 12 The participating schools and kura chose one of three delivery models, noted in the table below:

Delivery Model	Definition
Group	A group of schools and kura to use a single larger supplier with the capability to deliver lunches across the group under one contract managed by the Ministry.
Panel	Outsource to a local external supplier from an approved panel of suppliers that prepares lunches at the school or offsite and delivers to the school.
Internal	Make their own lunches in the school or kura.

- 13 The programme was then expanded to cover 25 percent of all students across the country who face the greatest levels of socio-economic disadvantage and barriers that can affect access to education, wellbeing and achievement. Funding has enabled 32 percent of all schools and kura across New Zealand to join the programme.

Tranche 4 - Delivery Models

Group supplier Model

- 14 The group supplier model required the 267 schools and kura with 77,205 students to be split into 27 geographically distributed groups. Nine suppliers were contracted from across the country for the 27 groups of schools and kura to choose from.
- 15 All schools and kura in the group supplier model began receiving lunches at the beginning of Term 1 2021.

Panel suppliers or Internal Model

- 16 An additional 346 schools and kura with 78,352 students chose to either select from a panel of small local suppliers or schools and kura preparing lunches in-house.
- 17 138 of these schools and kura commenced lunch delivery in Term 1 and the remaining 208 schools and kura will commence delivering lunches from the beginning of Term 2, depending on their readiness.
- 18 Both of these delivery models require additional time and resource to set up due to their complexity. For example, schools and kura making their own lunches will need to show how they address food safety through a food control plan and in some instances, there is a need to source capital items (e.g. ovens, fridges etc) and set up kitchen operations; smaller local suppliers may need lead-in time to expand their operations.
- 19 A list of the 613 schools and kura broken down by region can be found in **Annex One**.

Tranche 4 - Lessons learnt

- 20 Tranche 4 was the most significant in terms of size and complexity of the roll-out and along with the evaluation the programme has identified areas that have informed the remaining implementation timeframe. More time is needed for:
 - a. schools and kura to consult with Boards and their communities about whether to join the programme and which model they should use.
 - b. external suppliers to hire and train new staff as well as create supervision structures, new policies and processes to deliver lunches at scale.
 - c. schools, kura and suppliers to adapt to nutritional guidelines. For some the nutritional content of lunches, portion sizes and dietary requirements have caused issues, which need to be addressed prior to lunches being served.
 - d. internal model schools and kura without an existing food operation need time to develop Food Control plans and menus, appoint and train staff and establish their operation. For a lot of these schools this is often more work than they expected.

Tranche 5

- 21 Invitations to the Tranche 5 schools and kura (15,480 students) were sent on 19 March 2021. This final group includes Specialist Schools, Activity Centres and Teen Parent Units. Additional schools and kura were also included, due to schools in earlier tranches declining the invitation to be a part of the programme.

Tranche 5 - Timeframes

- 22 In planning the timeframe for Tranche 5, invitations were scheduled to be sent early March. The invitations were delayed while future funding decisions were made about the extension of the programme beyond December 2021. This slight delay meant that schools and kura had two weeks less, prior to the end of Term 1 to decide about participating in the programme.
- 23 Of the 131 schools and kura in Tranche 5, the majority are primary, intermediate, composite/area schools and secondary schools. The remainder include nine Activity Centres, 18 Specialist Schools and 20 Teen Parent Units. See full list of Tranche 5 schools and kura attached in **Annex Two**.
- 24 Invited schools and kura were asked to respond to the invitation by Friday 16 April indicating their preferred delivery model. This gave schools and kura an opportunity to consult with their Boards and communities on their decision.
- 25 Of the 131 invited schools and kura, 83 have accepted the invitation to date. Of these 58 have indicated they wish to engage with an external supplier, 20 have indicated they would prefer to deliver lunches themselves and five have not indicated their preference. We are contacting the 48 schools who have not yet responded.

Next Steps

- 26 A tender will be run to contract additional suppliers to add to the supplier panel, where gaps have been identified across the country. The procurement process takes 6-8 weeks (including the tender, evaluation, moderation and contract negotiations). This will commence as soon as we get a response from the remaining schools.
- 27 Once the supplier panel is ready, schools and kura can select their preferred supplier(s) and start planning for delivery.
- 28 Schools and kura who have chosen the internal model will work with Ministry staff to register their Food Control Plan, develop, and submit menus for approval and identify any minor capital items required for their kitchens.
- 29 Consideration will also need to be given to the arrangements for Specialist Schools as they have students with high and complex needs, many with special dietary requirements. As a result, these schools may require additional time to set up.
- 30 All of the Tranche 5 schools and kura will be ready to start serving lunches from the beginning of Term 3.

Proactive Release

- 31 We recommend that this briefing is proactively released as per your expectation that information be released as soon as possible. Any information which may need to be withheld will be redacted in line with the provisions of the Official Information Act 1982.
