Background

1. In response to the COVID-19 pandemic, you have temporary power under the Education and Training Act 2020 (the Act) to approve State and State Integrated schools to provide education to eligible students outside New Zealand (Schedule 1, clause 11). To be eligible, students must have been enrolled at the school for the 2020 school year on or before 3 July 2020.
2. NZQA has temporary power under the Act (Schedule 1, clause 12) to approve registered (including private) schools to provide NCEA to eligible students in accordance with their Rules. Private schools do not require your approval to provide education offshore.
3. These provisions expire on 31 December 2022.

Criteria for offering education offshore

4. You have approved the following criteria for considering State and State Integrated schools' applications to provide education to students outside New Zealand (refer METIS 1240810):
 - a. Students are eligible and have a 2020 enrolment with the school on or before 3 July.
 - b. The school has the capability to provide suitable and quality distance learning and assessment to students outside NZ.
 - c. The school has the capability to provide suitable information and support for learning and wellbeing to students outside NZ.

Overview of applications

5. The Ministry and NZQA have a joint application process, and as at 18 March, from 22 applications received, 17 have been approved as noted in the table below (METIS 1239346 and 1246261). St Cuthbert's College, St Peter's School (Cambridge) and Te Aho o Te Kura Pounamu did not require your approval to provide education offshore and were instead approved by NZQA.

**NZQA has provisionally approved these schools, pending your approval to deliver education offshore.*

7. A panel of Ministry officials assessed each of the schools against the approved criteria about whether the schools have the capacity and capability to deliver education offshore. We confirmed the eligibility of individual students' enrolment information, the suitability of the proposed learning programmes for distance provision and the arrangements for pastoral care of the students concerned. The panel also sought comment from the Ministry's regional offices on all applications.
8. We continue to seek clarity from schools where required, such as:
- Copies of signed enrolment contracts where students were not entered on the ENROL system
 - Information about the specific consultation held with teaching staff to ensure staff had appropriate opportunities to raise concerns about delivering to students overseas
 - How specific learning programmes, for example, catering and painting, had been adjusted to be suitable for distance provision, while ensuring authenticity of students' own work
 - How the provision of pastoral care would be done via distance, eg accessing guidance counsellors via Zoom rather than face-to-face.
9. We recommend approving Napier Boys' High School and Sacred Heart College (Glendowie). These schools have demonstrated that their students are eligible, and that they have the capacity and capability to deliver education offshore.
10. NZQA has provisionally approved these schools to temporarily provide NCEA outside New Zealand.
11. NZQA has also approved King's College to temporarily provide NCEA. King's College does not require your approval to provide education outside New Zealand.

12. You and NZQA previously approved 73 students to receive education and the provision of assessment for NCEA through these arrangements. By approving the above schools, you will be approving two further students to receive education and NZQA has approved three more, bringing the total to 78 students. These numbers are expected to fluctuate as more students return to their home countries, and others end their enrolments with New Zealand schools. The Ministry and NZQA, as appropriate, will confirm with schools the eligibility of individual students as this happens.

Next Steps

16. We will provide a copy of this Education Report to NZQA to confirm your decision regarding the schools listed in recommendation (d) above to provide education outside New Zealand. This will meet Criterion 1 of the NZQA rules: "*State schools must have obtained Ministerial approval under clause 11 of Schedule 1 of the Act*". If approved, NZQA can then approve those schools to provide NCEA outside New Zealand.
17. The Ministry will notify the State and State Integrated schools of your approval for their provision of education to eligible students outside New Zealand.
18. The Ministry and NZQA will confirm with the approved schools that the students meets the enrolment eligibility criteria.
