** These numbers are based on the last enrolled school of the student.

2022 Repeat Referrals

| Repeat Referrals from Jan 01 to Dec 31 | | | | |

| Total | 28,754 | 100.0% | 23,522 | 100.0% |

The Repeat Referral calculation methodology:

The numbers have been calculated by looking at the NSN of the student as a unique identifier of all NE and UA cases opened this year, and counting the number of times the NSN has been assigned to a new open case.

For example, two referrals means a student has been referred twice to the provider within the year 2022. This can be:

- A student who has had a UA case and a NE case
- A student who has had two UA cases
- A student who has had two NE cases

NOTE: The case closure dates for some cases in terms one and two are inaccurate as some cases for new providers were manually added to the system.
