Notes:

Caveats: School financial year (January to December) information was extracted from the

Financial Information Database for Schools (FIDS). The Ministry collects Financial data as recorded by schools within their audited annual financial statements. Data is updated

as accounts are received, this information is subject to change.

This data supersedes data provided previously. Data is continually being updated as schools provide their financial returns to MoE. Data provided is as at 21 November 2019.

The Ministry does not have access to data showing the level of donations requested by schools. What we do have is a record of the donations income recorded by schools in their annual financial statements and we have provided the amount on that basis.

The data provided represents donations received by schools from all sources, not limited to donations from parents.

Data provided does NOT include imputed figures.

Data provided does not include Private schools. It only includes data for State, State:

Integrated and Other: Vote Education schools.

This analysis does not consider the size of schools.
