

Dear [REDACTED]

Thank you for your email of 11 June 2019 to the Ministry of Education requesting the following information:

I would like the number of prefab buildings in schools in Rotorua and Tauranga as well as the Bay of Plenty as a region as a whole? Can I please have the schools specified in this information?

And for each school:

- when were they installed?***
- when were they set to be upgraded?***
- what are the reasons for any delays?***

We do not record data on 'prefab buildings' as this is not a definition by which we describe any buildings on school sites. As such, I am refusing your request in full under section 18(g) of the Act as the requested information is not held by the Ministry.

We do record some data on 'relocatable' buildings and I have attached this for your information. **Appendix A** is a spreadsheet which lists the number of 'relocatable' buildings at schools (601 buildings) in the Ministry's Central North Infrastructure region (which includes Rotorua, Tauranga and the Bay of Plenty).

For context, 'relocatables' are no different to any other teaching space in that they provide long-term accommodation solutions for schools and come in many styles. They do not have a predetermined lifespan and with adequate maintenance and capital replacement work can have a long life like any other building. The only difference is that 'relocatables' can be transported. Many buildings recorded as 'relocatable' on our asset management system form part of schools' permanent facilities. As 'relocatables', however, some of the buildings included in the attached list may have been moved on a number of occasions. We do not systematically record the date they are installed.

Boards of Trustees are responsible for the maintenance and development of all of their buildings and facilities, including buildings recorded as 'relocatable', and it is for Boards to determine how to allocate their property funding based on their property priorities.

Please note that the figure provided reflects the information currently recorded in our asset management system. Data on relocatables is gathered at a local level and its precision is impacted by a number of factors, including timeliness and consistency of local data input. For example, this number may not fully capture all buildings of this nature, and may also record some buildings which are no longer in use.

As a result of the factors outlined in the paragraphs above, the data is subject to change.

Please note, the Ministry now proactively publishes OIA responses on our website. As such, we may publish this response on our website after five working days. Your name and contact details will be removed.

Thank you again for your email. If you have further questions please feel free to contact our media team in the first instance at media.team@education.govt.nz. If you are unsatisfied with my response, you have the right to ask an Ombudsman to review it. You can do this by writing to info@ombudsman.parliament.nz or Office of the Ombudsman, PO Box 10152, Wellington 6143.

Yours sincerely

Kim Shannon
Head of Education Infrastructure Service
